

THE PREMIER

GOVERNMENT MANAGEMENT PLATFORM

GovPilot enables local government to operate at full potential.

Modern Government Management

- ◆ Unify operations & departmental data.
- ◆ Generate previously unrealized revenue.
- ◆ Secure data from cyber and physical threats.
- ◆ Access information 24/7 from anywhere in real-time.
- ◆ Drastically improve efficiency through automated processes.
- ◆ Significantly reduce call volume, walk-ins, and other distractions.

Maximize Efficiency, Security and Business Continuity.
Bring your processes and data into the 21st century.

Your Dashboard

Customizable for each user to drive maximum efficiency.

More than 125 configurable modules which enable governments to streamline operations by unifying their departments and data onto a single platform.

The dashboard features a top navigation bar with a search bar and user information. A left sidebar contains navigation options like 'New Record', 'Home', 'Modules', and 'Map'. The main area displays a grid of colored cards for different record types: Parking Permits (66 Paid, 1 Denied), Reports a Concern (50 New, 5 WIP), Dog Licenses (226 All, 25 New), CCOs (21 CCO, 2 CCO Buyers), Open Records Requests (357 All, 29 New), and Construction Inspections (397 All Inspections, 279 Inspections 2018). Below the cards is a 'Recent Records' table.

Property	Form	Record Type	Reference	Status	Other	Property Address	Last Modified
		Construction Permit	20190077	Issued	ADDITION AND RENOVATION T...	184 CHURCH ST	12/16/2019 3:16:48 PM

GIS Mapping

Search and visualize data across your entire organization

SEARCH

Take your map search tools, combine that with all your departmental data, and run any search imaginable.

VISUALIZE

Display digital map layers including municipal assets, public buildings, flood zones, and more. No ESRI license or experience necessary.

ANALYZE

Make data driven decisions. No need for prior GIS experience, intuitive enough for anyone to get answers quickly.

The GIS interface includes a search bar, a 'Map' section with a 'Map Layers' list (e.g., Active Cats, Bicycling Layer, Bus Routes), and a 'Geography Area Search' option. A detailed property information panel is open for '223 VOSE AVE, SOUTH ORANGE VILLAGE TWP'. The panel lists various details such as property address, assessment, building description, and owner information.

Property Address	Value

Property Profile

Anchor property level details across all departments.

View and Update In Real-Time

Property-specific records such as ownership and tax records, construction permits, violations, animal licenses, photographs, and much more. Departmental data is tied to a single property profile in GovPilot ensuring that data is easily accessible, up to date, and informative.

Benefits Employees and Constituents

- ◆ Remove fragmented, siloed data.
- ◆ Drastically reduce phone calls.
- ◆ Nearly eliminate open public records requests.
- ◆ Cut down on walk-ins.
- ◆ Save time retrieving information.

The screenshot shows the GovPilot web application interface. The main content area displays the 'Property Profile' for '617 MOUNTAIN DR, SOUTH ORANGE VILLAGE TWP NJ 07079'. The interface includes a search bar, a navigation menu, a photo of the property, and various data sections like 'Tax Assessment Information' and a table of records.

See The Whole Picture

The answers you need, now!

Not a daily user, not a problem

Unlimited licenses allow everyone within your government to access GovPilot and get the answers they need within seconds. No expertise needed!

Scalable

GovPilot offers more than 125 modules designed to meet every need. Implement them all at once, or just a few, and scale over time.

Constituents Expect Convenience

Civic engagement for the digital age.

AUTOMATED

Provide constituents and employees the convenience they have come to expect by transitioning departments off of antiquated paper processes and single-purpose applications, to a single, unified digital platform.

DIGITIZED

State-of-the-art digital forms enable governments to obtain all necessary information from constituent applicants, process their requests, and store relevant information so that it is readily available and searchable across all departments in real-time.

Record Request Information

Note that you may only submit one (1) request per form. After pressing "Submit" below you will have the option to enter additional information in a second request.

Unify Departments

All of your data. One platform. Seamless collaboration.

ACCESSIBLE

Secure, cloud-based software allows 24/7 real-time access and instant updating of critical records from any device, anywhere.

TRANSPARENT

Departments are able to quickly and easily review data from another department or colleagues in the field, saving time and effort while increasing productivity.

SECURE

GovPilot meets the most rigorous cybersecurity standards. The cloud-based software ensures that records are safe from physical threats like floods and fire too.

Mobile Solutions

Any Time. In Real-Time. Anywhere.

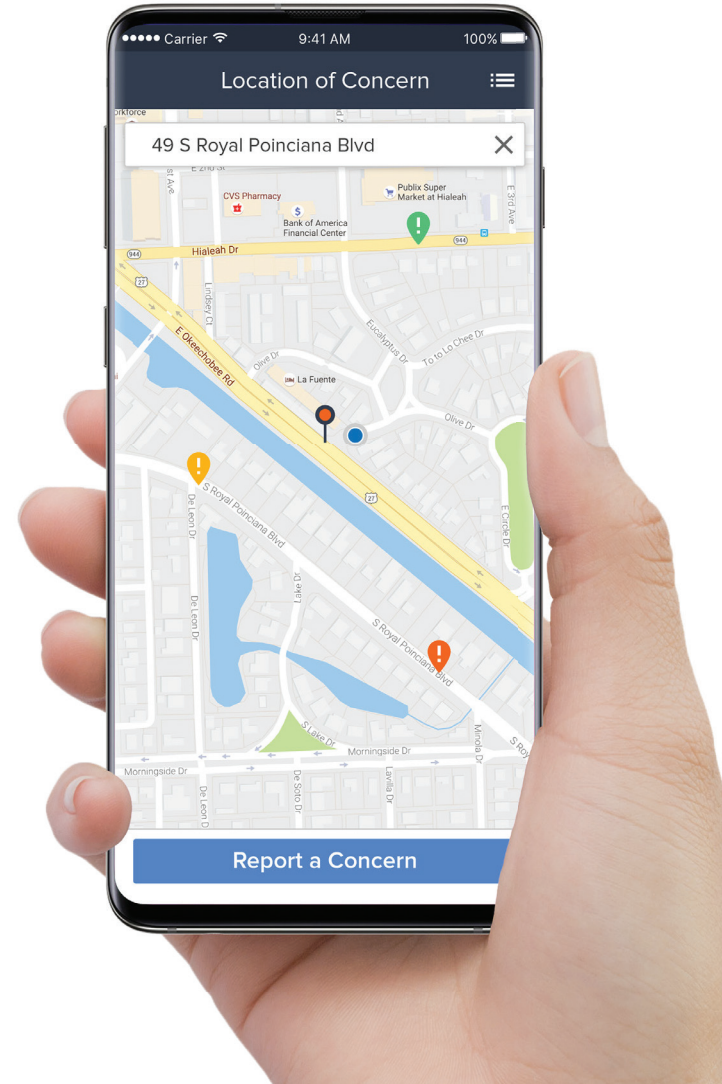

GovAlert App

Empower constituents to report non-emergency issues.

MOBILE REPORTING

Combine the convenience of a mobile app with the real-time reporting power of GovPilot. With the GovAlert app downloaded to their iPhone or Android device, constituents can quickly and easily report a concern - a pothole, damaged street sign, overgrowth, or other issues.

Advanced GIS mapping software enables accurate tracking of potential hazards as they are reported, the dispatch of personnel to address needs, and the updating of constituents on repair and resolution statuses in real-time.

GovInspect App

One solution for all inspection needs.

UPDATE IN REAL-TIME

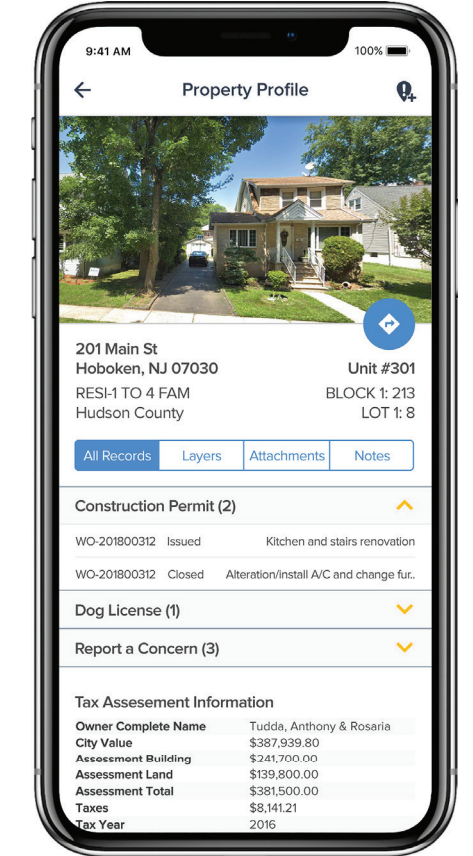

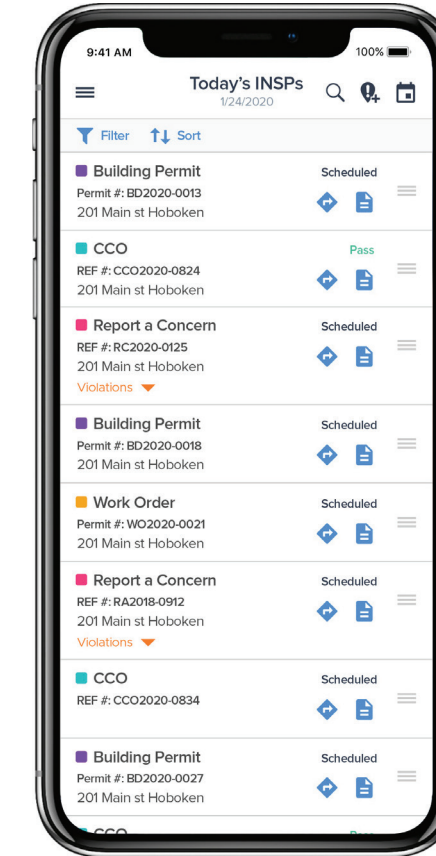

The GovPilot Inspection App enables users to perform inspections from the field which update in the system in real-time.

NO BULKY CLIPBOARD

Instantly access and update inspection records from the palm of your hand. No need for inspectors to look up assignments in the office or carry around a bulky clipboard.

ACCESS ALL DATA AT ONCE

View GovPilot's Property Profile to see other modules containing records of specific properties, including status updates, tax assessments, and any other notes attached to the parcel.

Online Real Estate and Tax Auctions

Generate Revenue. Meet Economic Development Goals.

Real Estate Auction Services are available at no cost to local governments and include end-to-end capabilities to list, advertise, and host online property, and Sheriff's auctions

 Display properties on a GIS map via GovPilot's Property Profile

 Automated Valuation Model for comparable recent sales

 Online credit card transactions for auction registration and payment

 Media and marketing support to drive awareness and registrations

GENERATE REVENUE

Sell vacant properties and lots previously managed by the city, to residents, thereby generating much needed revenue, and decreasing costs and liability.

REVITALIZE NEIGHBORHOODS

Encourage residents to become homeowners and open new businesses. Reduce blight and crime by making property ownership opportunities accessible.

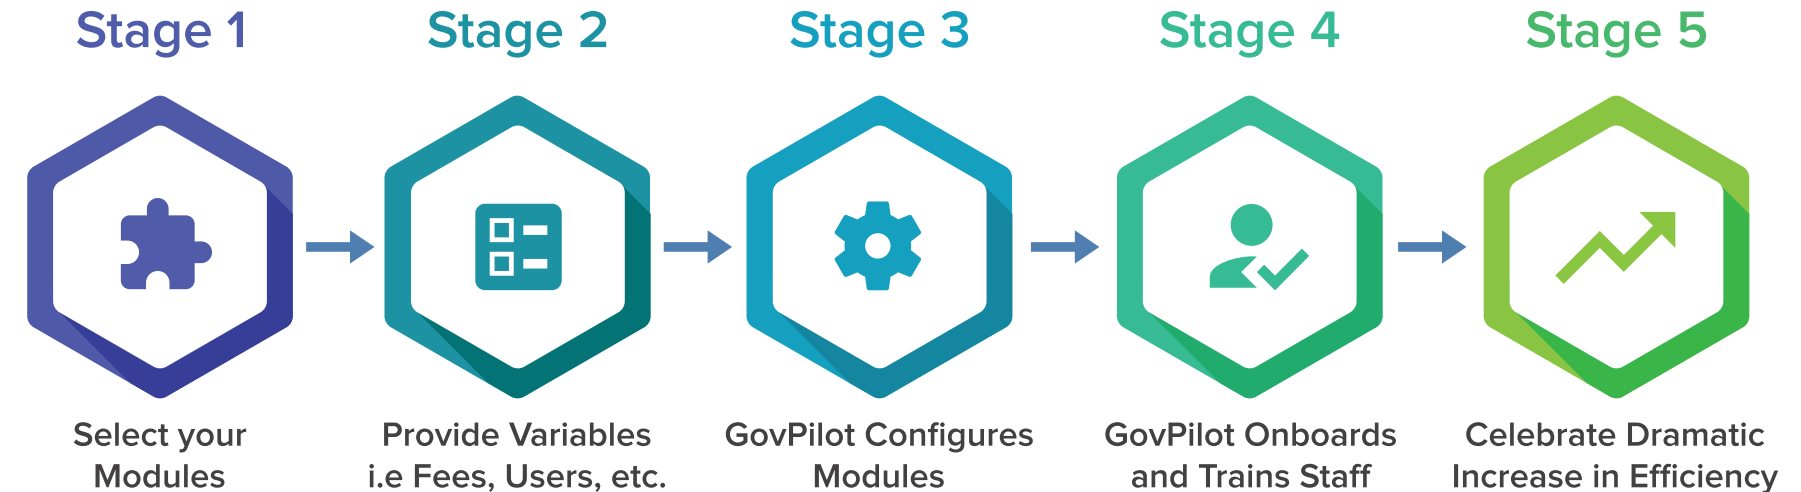

PROVIDE OPPORTUNITY

Promote affordable commercial and residential property ownership options to citizens with opening bids starting at below market prices. Online auctions make it easy.

Onboarding

Allow GovPilot to do the heavy lifting!

GovPilot's experience in onboarding includes transitioning staff who can sometimes be reluctant to change and adoption of technology. We will work towards immediate wins to create champions from within your organization. Our aim is to complete module onboardings within 45 days.

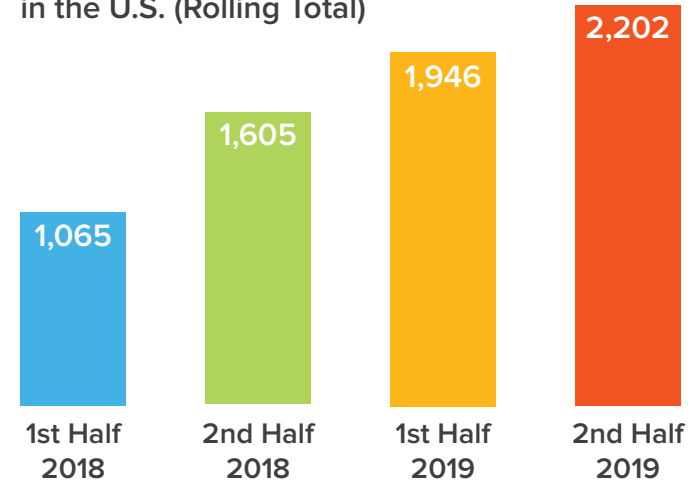

Cybersecurity

Secure Data in the Cloud with GovPilot.

- ◆ Ransomware attacks have become more brazen, crippling cities and counties across the United States. Cloud-solutions reduce on-site risk and maintenance costs.
- ◆ From 2019 - 2020, municipal governments were the targets of 45% of all ransomware attacks.
- ◆ From 2017-2020, the estimated reported ransom paid per event in municipalities was \$125,697, and payout demands are increasing.

Cyberattacks against State & Local Governments in the U.S. (Rolling Total)

Selected Ransomware Attacks in 2019

Date	City	State	Ransomware	Ransom Demand	Paid?
March	Jackson County	GA	Ryuk	\$400,000	Y
May	Baltimore	MD	Robbinhood	\$75,000	N
June	Lake City	FL	Ryuk	\$460,000	Y
June	Riviera Beach	FL	Ryuk	\$600,000	Y
August	23 Municipalities	TX	Sodinokibi	\$2,500,000	N
